Feedback Analysis Session 2021-22

Students Feedback

It is important for any academic institute to collect feedback from the stakeholders. The Internal Quality Assurance Cell (IQAC) collect the feedback from the students who are one of the important stakeholders of our college. By collecting feedback from the stake-holders we are trying to minimize the weaknesses of the institute. We as an institute try to utilizing the available resources. This is definitely help us in finding new achievements.

This year we have developed online feedback system through Google forms to maintain the COVID-19 protocols. Since the complete session was conducted online, we have included questionnaire based on the online teaching learning methods, laboratory, library, sports and other facilities, contents of curriculum, examination and evaluation process etc. The Google forms link was shared to the students to the WhatsApp group and the responses were recorded. We have recorded the responses of more than 600 students in the feedback from all the faculties. Maximum number of students appreciated the efforts done by the teachers and administration to conduct this session amid the pandemic situation. The percentage of syllabus covered by the teachers is 70-85% as said by 45% of students. Few students said teachers need to prepare before the lectures. Most of the students appreciated the support given by the teachers for their upliftment. Regular tests, competitions, projects, assignments, activities were conducted throughout the session. Teachers give career guidance and counselling to the students often.

Few suggestions from the students-

Need of teacher for Zoology and Mathematics.

Drinking water facility near parking place.

Canteen facility in the college.

Library management should be done properly.

More equipment required for labs.

Need to improve the number in staff.

Proper seating arrangement is required.

Motivational lectures and career-oriented workshops are to be organized.

The number of classes in PG are less, few more classes and teachers for PG colleges required.

Feedback from teaching staff

Suggestions received from teachers: -

• Strength of Wi-fi need to be upgraded.

ICT facilities to be improved in the college.

Few more classes need to be equipped with LCD projector.

- Project should be made mandatory for UG and PG students.
- Improvement of laboratory infrastructure.
- Need of more reference books in library.
- College has to be developed as research center in few subjects.
- Dimension of laboratories, class room need to be extended.
- Updation of laboratories.
- Development of media center and mini sangrahalaya.
